NOTICE OF INITIATION OF PROCEEDINGS FOR AN ORDER
WITH A VALUE NOT EXCEEDING THE PLN EQUIVALENT OF PLN 130,000

Buyer, Heavy Ion Laboratory, University of Warsaw, in the tender procedure No. 003/2023/IM, invites to submit an offer for the purchase of the TWTA amplifier, in accordance with Annex No. 8 to Order No. 294 of Rector, of the University of Warsaw from December 31, 2020 on the procedures, principles and forms of awarding public contracts for services, supplies and construction works by the University of Warsaw (Monitor of the University of Warsaw, item 294).

1. Procurement procedure

The procurement is awarded in an open procedure, in accordance with § 7 of the Regulations on the procedures, rules and forms of awarding public contracts by the University of Warsaw for services, supplies and construction works, with a value lower than PLN 130,000.

2. Name and address of the Ordering Company:

Heavy Ion Laboratory University of Warsaw, Pasteura 5a
02-093 Warsaw, CRO certificate: 000001258, NIP: 525-001-12-6

3. Order subject description:

The subject of the procurement is the TWT amplifier for the Warsaw cyclotron.

Required properties and minimum technical parameters characterizing the device:

Unit characteristics

Name: Traveling-wave tube amplifier (TWTA)
Frequency range: 13.75 to 14.5 GHz
Output power: not less than 400W
Description: The device is a high-frequency and high-power amplifier. A typical TWT amplifier consists of: a traveling wave tube, an RF input section, a power supply and logic interface section, and an RF output section.

A traveling wave tube is a type of vacuum tube used to amplify high frequency signals. The RF signal is amplified by absorbing the energy from the electron beam passing through the tube area. TWTAs typically operate in the range of hundreds of MHz to frequencies above hundreds of GHz. They provide power levels from a few watts to megawatts with a gain of 40 to 60 dB.

9. DESCRIPTION OF THE CRITERIA AND METHOD OF EVALUATION OF OFFERS

The Contractor for the service covered by this procedure will be selected on the basis of the following criteria:

price - 80%

warranty period - 20%

The percentages will be converted 1:1

1. Price criterion

80 points will be awarded to the lowest price among the submitted offers, calculated according to the following formula

\[
\text{price point} = \frac{\text{offer with the lowest price} \times 80 \text{ pts.}}{\text{the price of the examined offer}}
\]

2. Warranty period criterion
20 points will be awarded to the offer with the longest warranty period among the presented offers, calculated according to the following formula

\[
\text{point of warranty period} = \frac{\text{guarantee period of the examined offer} \times 20 \text{ pts.}}{\text{the longest warranty period}}
\]

The final result is the sum of the two components

\[W = \text{price + warranty period}\]

The maximum number of points to be obtained is 100 points.

If more than one offer receives the same number of points on the ranking list, the price will be the final criterion for selecting the most advantageous offer.

10. Conditions for participation in the proceedings:

The Contractor shall attach to the offer form:

1) a current excerpt from the relevant register or from the central register and information on economic activity, issued not earlier than 6 months before the deadline for submitting the tender,
